Wilburforce Foundation Public Support Test

In order to assure that Wilburforce Foundation is meeting U.S. tax laws and regulations, we must be able to document that any Canadian charitable organization that we fund is operating under equivalent standards for tax-exempt organizations in this country. Our accountants have determined that the attached Public Support Test will provide us with the necessary documentation.

If you already possess a completed copy of this document and it is less than one year old, you may use it to meet this requirement. If you do not have a completed copy of this document, or if the copy you have is greater than one year, you will need to fill out a new Public Support Test. We recognize that it may take some time to complete the test for the first time, and we apologize for this inconvenience.

You must complete ALL columns on the form.

If this is the first time you have completed this form or if you have any questions about the Public Support Test, please phone or email our office.

Public Support Test

NOTES:

This test is used to determine that Canadian charitable organizations (which receive the majority of their funding through gifts and grants) are publicly supported over

the last four fiscal years and therefore qualify as the equivalent of a United States Public Charity. Please call us (206/632-2325 or 800/201-0148) if your organization needs help in filling out this form or does not pass this test.

Note 1 -- All amounts on form should be shown using the cash method of accounting and be in U.S. dollars.

Note 2 -- First time grants from foundations may be excluded from the total support calculation if the following circumstances have been met:

a) There is not a close relationship between the donor and the recipient and the grant is made in cash or check.

b) If the grant is to underwrite operating expenses, the grant is limited to no more than one year's operating expenses.

Note 3 -- Excess contributions are amounts received from any contributor (other than from other publicly supported organizations and governmental units) that, in the aggregate for the four year period, are greater than 2% of the organization's total support (page 1, line 10). (For this purpose, private foundations are not publicly supported organizations, and any grant in excess of line 10 will be an excess contribution and therefore cannot count toward public support.)
